# Trusted Reviews

**★★★★★** I have worked with Temok IT for over a year. Jun 16, 2021  
sane mtyla -  
I have worked with Temok IT and I can guarantee it is one of the best web hosting companies out here. Their servers are never down and they guarantee your privacy and safety. Try them and you won't regret.

**★★★★★** Temok provides very good support! Apr 18, 2021  
Don -  
Temok is very helpful and provide a really good service. I did notice I need more resources than anticipated and therefore my package turned out to be more expensive than I initially wanted. But the service the team provides is great. I got some problems with migrating hosting, website, e-mail and so on. Temok's team is always there to help you very quickly. To have good support is really valuable.

**★★★★★** Hi, I am Vijeyaghavan from India, Oct 3, 2020  
vijay -  
A long ambition to start my own web designing company,so registered a company in India... but don't know from where to start by buying domain name and hosting space tried with google search "Temok" came up, but don't know anything in this field as I have no knowledge on the server side, the support guided me a lot, on the other hand there was a problem for me in the currency conversion from INR to USD but some how I decided that my website needs to be hosted here, creating an account after a big struggle. The support and the billing team helped me a lot. Especially a person who was kind enough to help me in dire need Mr. John Finch. I also like to thank the entire support team who is working tirelessly to words customer satisfaction. I also came to know Temok was started in the year 2014. I am wishing them a grand success for their future endeavors.  
Regards,  
Vijeyaghavan

**★★★★★** Offered unbeatable customer service in the market Sep 18, 2020  
Ayden Bell -  
My wife into the food blogging business but from the past several days, she started facing issues with the shared hosting in the website. In just a single request, one of their tech agents came to our residence for suspecting the problem and recommended her the best solution. The overall process took less than half an hour. Indeed, it's WOW. We are surely very grateful to this company.
