Marketing

Through proper marketing and promotional services, we help to introduce your gaming project to the right community world wide. This way your project can reach the right set of peoples and can raise demand in the crypto industry. Our experts can handle Social Media Marketing and Search engine Optimization.

PROJECTS & PORTFOLIO

The player shall control the movement of a combat ship and guide it across an obstacle course.The combat ship shall be equipped with ammo for destroying the enemy vehicles. The player will have to survive the enemy attack to collect rewards and move to the next level. Each level has a unique visual experience with a variety of environments ranging from battlefield to outer space alien combats. In total there are 10 unique environments Available. The game progression is designed to accommodate any number of levels in the game play.

AIR COMBAT

The game has a story mode. Player can participate in race in various arenas. The player must finish within 3 rd position to move to next level. The game has in game purchases for a variety of racing cars and car accessories. If a race is lost (couldn't finish in first 3 positions), the car's ownership shall be transferred to the player finishing first. The player can grow the value of their purchased cars by winning races. The winners also get to collect more cars by defeating their competition in the race.

CRYPTO FOR SPEED CFS

Digital Dominion: Conquer with NFTs

The player must hunt in a zombie world and collect various zombie superpowers as NFTs.

There is an in game purchase for guns ammos and powerups/ collectibles.

The player's power and domination will depend on the amount of NFTs collected by the player.

The player can sell his/her redundant powers to other players based on his domination level

Wild Crypto Quest: The Jungle Expedition

The player is put into a fantasy jungle. The player is initially given an animal character using a random draw. The jungle has land based animals, water bound animals and flying birds. Each clan has its own set of abilities and limitations.

The player must attack and kill another creature to collect coins. These coins can be redeemed to purchase other NFT items.

The more the abilities collected by the player the more powerful he/she becomes at hunting other players.

NFT Battle Arena

The player participates in MMA style wrestling duels against opponents. Each character is an NFT with a set of fighting abilities. The abilities and superpowers can be upgraded by winning more matches.

The goal of this game is to purchase a character NFT, grow its value by winning matches and then selling it back to the community for a profit.
